TMFD 325/Woven and Non-Woven Textiles

Weave, knit, and grow your own textiles.

Develop a hands-on understanding of the traditions and innovations of textile construction methods.

Students may adapt projects to individual interests, such as fiber arts, fashion and textile design, women’s history, or textile science.

You will learn:
How to set up and operate a jack loom
How to knit
How to grow your own textile material using sugar, tea and microbes

Instructor: Camille Hawbaker, M.F.A.
1st Summer Session, 2015
Mon-Thurs., 8:50am – 12:50 pm
June 8 – July 10
HECO 216, East Campus
